Assignment 2 Submission -Due 2 May 2026		
Student Initials & Surname [2]		
Project Title [2]		
Description/Summary [10]	Brief description of the software system and the emerging technology being integrated (e.g., Blockchain, AI/ML, IoT, AR/VR, Edge Computing, Quantum Algorithms, etc.)	
Problem Statement [10]		
Technology Stack [10]		
Emerging Tech Integration Goals [10]		
Justification for Emerging Technology [6]		
Functional Requirements [10]	Take cognisance of FURPS+	
Non-Functional Requirements [5]	Take cognisance of FURPS+	
Emerging Tech-Specific Requirements [5]	E.g., “Require pre-trained AI model with < 50ms inference latency.”	
User Stories [5]	Traditional flow + additional scenarios enabled by emerging tech	
Database Design/Dataset [5]		
API Design [5]		
Emerging Tech Code Integration [5]		
Testing & Evaluation [10]
